YELLOWSTONE 4x4

# GREAT COMFORT

Two words which perfectly illustrate our YellowStone.

Come and relax in our ample living area, our modular table can be extended or folded neatly to travel with more space.

Have dinner with friends on a remote beach, work away from the city to find new inspiration or enjoy a great family vacation. Our campervan invites you to experience new adventures every day. Some practical facts - built-in led lighting, TV fittings, easy access to the fridge, the powerful Truma diesel heater, these are just some of the features which will make you fall in love with the YellowStone.

Furthermore our insulated aluminium windows ensure plenty of natural light and the soft colours of our wood furniture create a warm atmosphere.

The ergonomic seats allow numerous adjustments. Iso-fix is standard for the rear seats.  
Ask about the many upholstery options.

# TIME TO ENJOY

The ample kitchen provided in our YellowStone will allow you to prepare your most exquisite recipes wherever you are. It is equipped with two gas-burners, an integrated sink with a glass lid and an elegant 90-liter compressor fridge which will not be affected by rising outside temperatures. The practicality of its location allows it to be used also from the outside. To increase your autonomy, it is also powered through a high-power solar panel as standard.

All drawers are fitted with soft close mechanisms and with superior quality drawer guides.

The multipurpose extension table allows you to increase the kitchen space or it can be used as an outdoor table to enjoy your aperitif in the shade of our optional outdoor awning.

Experience maximum autonomy, the YellowStone is fitted with a 150 liters sanitary water deposit. Refueling distances are never a problem on impossible journeys.

Enjoy with maximum autonomy, the Yellowstone has 150 liters of sanitary water. Refueling distances are not a problem on impossible journeys.

# FEEL AT HOME

---

The bathroom has all the necessary built-in functions, your campervan experience will live up to your high expectations. Its compact and practical layout does not diminish its functionality, our design ensures maximum efficiency of the vehicle.

This includes an overhead storage cupboard, a sink with a pull-out shower head, a high-quality toilet with a removable drawer on the outside and with pressurized sanitary water.

Our smart waterproof bathroom sliding door guarantees maximum space efficiency.

Feel the natural wood under your feet, a resistant feature which will last through many incredible adventures .

Our waterproof door, the bathroom is also fitted with a folding window for perfect ventilation.

Detail of the hermetic sliding door, for a perfect sealing of the bathroom, which has a folding window for ventilation.

# TIME TO DREAM

The YellowStone is cleverly built! You can choose between two double indoor beds in the rear - this is ideal for bad weather, with young children or if you want the beds to be always available without additional preparation.

Another option is to equip your vehicle with a pop-up bed on the roof and remove the lower inside bed. This greatly increases your storage capacity by adjusting the height of the indoor electrical bed.]

The options are multiple.

Pop-up roof bed: 1,20 x 2 m

Electrical Inside Bed: 1,40 x 1,93 m

Electrical Inside Bed: 1,40 x 1,93 m

Removable Lower Bed: 1,40 x 1,90 m

The different configurations allow the Yellowstone to have a large storage space. The right chest has a passage for skis.

The electric bed allows you maximum modularity for all your hobbies. We have specific accessories, ultra-robust storage boxes from the off-road world, and a removable interior bike rack to store your precious belongings.

You can also increase the capacity with the many outdoor accessories.
